

Licensing for Student-Owned Devices

When you purchase licensing for student-owned devices, you will receive a spreadsheet with multiple license codes; students will need a unique license code for each program. The expiry date for each student will depend on the length of time purchased and the activation date.

It is important that you keep an accurate record of which license codes are assigned to each student in case we need to extend the license.

Students can download the program here:

<http://download.digitalfrog.com>

Those students who do not have sufficient bandwidth for the download can purchase a disc online (\$5.00) - <http://www.digitalfrog.com/store>

Note 1: The user id and license will not be requested again, but will be used by Digital Frog to monitor the number of licensed users.

Note 2: Workbook Materials

- *The Teacher Guide is password-protected as it contains suggested answers; the password is shown on your invoice.*
- *If you want to customize the workbook materials to more closely fit your curriculum, email thefrogladies@digitalfrog.com.*
- *Interactive workbook materials will be available for purchase later this year (2013)*

Note 3: If you need to set up the program(s) without an internet connection, contact thefrogladies@digitalfrog.com for instructions.
